DOMKE® Testimonials

"Jim Domke took his knowledge as a working photojournalist and the knowledge of his fellow photojournalists to come up with the original Domke Bag. The folks at Domke have carried on the tradition of listening to working photojournalists and producing bags and equipment that Photojournalists' need. Domke products have adapted to meet the needs of still photographers and now video journalists. At the White House I see Domke bags everywhere—it is the favorite "run bag" for television sound men and women in Washington."

"I'm packing gear for an assignment right now and see an assortment of Domke bags for lenses, light stands, cameras, even my computer, that will make my journey more comfortable and insure my equipment will work when I arrive. I never leave home without them."

– Dennis Brack President, The White House News Photographers Association

"Approaching my 25th year working for and with the best photojournalists in the world, we have been witness to history, and Domke has shared a front row seat along the way. From the rope lines at the White House to the Oval office, to the attacks on the Pentagon and World Trade Center Towers, to the Olympics Opening Day, from Inauguration Day to Iraq, the quality and reliability of Domke gear is guaranteed to be the first choice of members of The White House News Photographers Association."

– Heidi Elswick Director, The White House News Photographers Association

"The trademark of a seasoned photojournalist is the well worn Domke bag hanging from their shoulder. I felt such a swell of pride and accomplishment when I got my first soft black canvas Domke bag. I couldn't wait to break it in so it would resemble the trademark look of the seasoned photojournalists I knew."

"After many years, many countries and many photo stories, my bag now has sculpted itself to my body and has the well used look I always envied. Just like a quality Leica body or a pair of dusty field boots, a trusty Domke is essential to a photojournalist's repertoire."

– Jamie Rose Secretary of the Board, The White House News Photographers Association

DOMKE® Accesso- ries

Domke offers a variety of accessories to increase the photographic experience including unique protection and carrying solutions. For equipment protection we have wraps, x-ray guards and Dri-Safe all weather carrying cases. Our carrying options include several straps, handles, belts, and the extremely popular USPO shoulder pad.

Protective Wraps

Made of padded knit with non-scratch nylon backing, they wrap around lenses, tools or anything else that needs protection. Hook & loop tabs on all four corners let each wrap be self-secured in any number of ways. Available in 11" (28cm), 15" (38cm), and 19" (48cm) square.

Gripper® Utility Straps

Made of the same thick webbing used on all our Domke Bags, with our Gripper® non-slip tracks woven in. The adjustable Utility Strap is 1.5" wide, and has durable nylon swivel hooks at both ends. Great for carrying hard cases and sling bags, or as a supplementary waist strap for your Domke Bag.

Gripper® Camera Straps

Whenever you have to carry your camera outside your bag, these straps provide the same non-slip security as a Domke Shoulder Strap. They come with the hardware needed to attach to any SLR. Some models feature twist-proof quick release extensions.

Super Handle

A variation on the hand-carrying strap supplied with most Domke Camera Bag models. Made of tough canvas webbing, with a rigid grip insert for leverage and comfort. Standard on F-804 Super Satchel, it attaches to existing hardware on F-2, F-3X, F-4AF, and F-6 Bags.

Backpack Strap

Carry your Domke Bag like a backpack with this unique harness. It attaches to the hardware on your Domke Camera Bag or Satchel, and allows the bag to ride low on your back.

Belts

The perfect addition to your F-5XB Shoulder and Belt Bag or Accessory Pouch. Made of tough 2" wide canvas webbing with durable side-release buckle and removable key/accessory clip.

Compatible with

F-945 Belt Pouch	F-5XA Shoulder & Belt Bag
F-901 Compact Pouch	F-5XB Shoulder & Belt Bag
F-902 Super Pouch	F-505 Lens Pouches

USPO Shoulder Pad

This ergonomically designed pad is made of thick foam rubber on a tough leather backing. Identical to the shoulder pad used by letter carriers, with the addition of hook & loop tabs which adjust to fit straps up to 2.75" wide.

X-Ray Guards

Designed to protect equipment from harmful x-rays during airport security and customs checks. Lead-lined bags also protect other sensitive media from the low-dosage x-ray machines used in airports around the world. Use in carry-on luggage, because checked luggage is exposed to high-dosage x-rays that X-Ray Guard cannot protect against.

Dri-Safe

This is serious all-weather protection for photo and electronic equipment, travel items, important documents, wallet/keys, medicine, and so on. Dri-Safe keeps its contents dry, cushioned and clean via a completely waterproof liner layered between durable 420 denier pack cloth on the outside and ripstop nylon on the inside. Closed-cell foam cushions and protects the contents.

- Roll-top closure with quick-release buckle seals out the elements.
- Rear loops allow attachment to belt or another bag.
- Removable shoulder strap has no-twist swivel snaphooks.
- Floats when sealed, but not intended for prolonged submersion.

Small Dri-Safe

- Dimensions: 7" x 3.75" x 2.5"

Large Dri-Safe

- Dimensions: 7" x 7.5" x 3.25"
